

Furnace Engineering

Leaders in Heat Processing Solutions

Customised Heat Processing Solutions

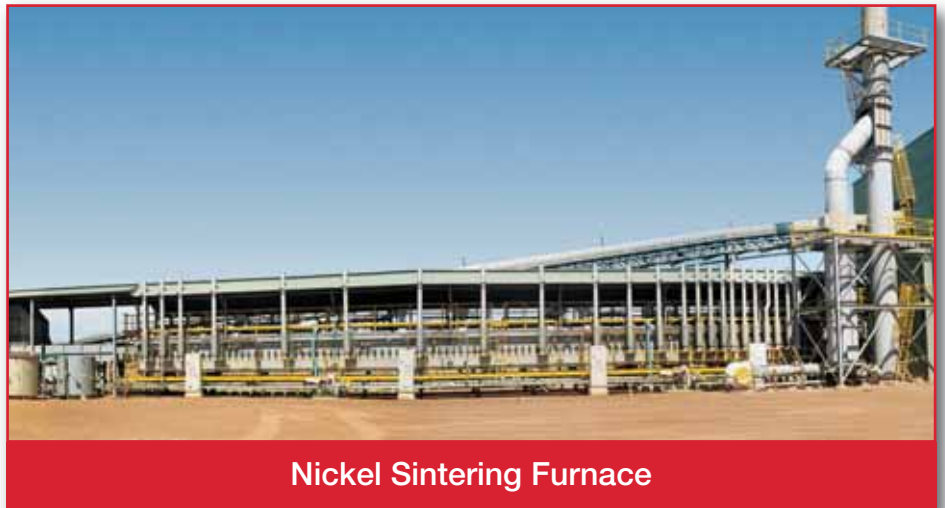

Many processes require a customised solution based on proven technology to ensure complete interface with your plant operations.

Furnace Engineering designs a range of customised heat processing solutions for various applications including:

- Nickel Sintering Furnaces
- Continuous ovens and furnaces
- Batch ovens and furnaces
- Induction Heating
- Fire Test Furnace
- General Process Heating

Used in:

- Aerospace
- Automotive
- Construction
- Defence
- General Manufacturing
- Mining
- Rail
- Research
